ABTUS[®]

CAT-GA Series

- Send video over up to 500 feet of ordinary CAT5 cable.
- Eliminate the need for bulky, expensive and difficult to terminate VGA cables.
- Send to a single receiver or up to six receivers.
- Easy to install! Just plug a standard CAT5 cable between the two units.
- Low-cost, single-channel extenders for sending video signal over CAT5 UTP.
- The VGA extender kit formats a PC's VGA signal for CAT5 transmission and converts the signal back to VGA for connecting a monitor or other display device at the receiver end.

CAT-CP Series

- Send video over up to 1000 feet of ordinary CAT5 cable.
- The Component extender kit enables extensions between DVD players or other Component (YUV) devices and compatible displays, such as HDTV monitors.

CAT-CV Series

- Send video over up to 1000 feet of ordinary CAT5 cable.
- The Composite extender kit enables extensions between DVD players, CCTV cameras or other Composite video devices and compatible displays, such as surveillance and video monitors.
