

Rear Projection SMART Board™ 2000i

Interactive Whiteboard

Touch the screen to control your computer

Write in electronic ink and save your notes

Adjust the height for different users

Teach with ease on the shadow-free display

Move between classrooms to share resources

Raise your teaching standards

The Rear Projection SMART Board 2000i interactive whiteboard lets you interact with your lessons and your students. The low-cost, mobile 2000i combines high image quality and touch control with remarkable ease of use.

Simply touch the screen to control computer applications, give lessons and navigate Web sites – all without casting a shadow. Write over any application or Web site, highlight points and save all your work for future lessons and planning.

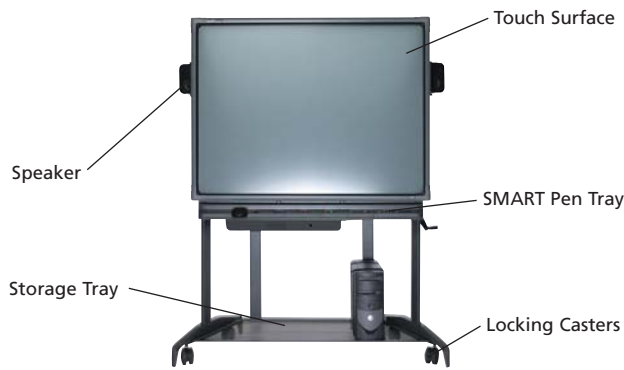

Adjust the height of the 2000i to meet the needs of different users. The built-in projector eliminates any start-up and set-up hassles. Use the 2000i to engage your students in learning. Get them involved by writing, brainstorming and giving presentations on the whiteboard.

Back View
(shown at minimum height)

Features

Touch System

DViT™ (Digital Vision Touch) technology, developed by SMART (patents pending), lets you use your finger as a mouse and write on the screen – without special tools. DViT technology uses cameras in the corners to track contact on the screen.

SMART Pen Tray

Optical sensors automatically detect when a stylus or the eraser is selected, while buttons activate the on-screen keyboard and right mouse click. Whisper-tip™ styluses and eraser included.

Integrated Projector

SVGA (800 x 600) projector with short-throw lens comes installed. An upgrade to a XGA (1024 x 768) projector is available.

Projector Control Panel

Front access to power, brightness and contrast controls.

Height-Adjustment Handle

Raises and lowers the screen from 69" (175.3 cm) to 83" (210.8 cm).

SMART Super Screen

Diffusion screen significantly reduces ambient light reflection and glare, and delivers a high-contrast, uniform image with a wide viewing angle.

Audio System

Control the volume of the stereo-amplified speakers from the front of cabinet.

Locking Casters

Four 4" (10.2 cm) casters make the 2000i easy to move.

Storage Tray

Place your computer and peripherals on the bottom tray for easy access.

X-Port™ 20 Switch (Optional)

Switches serial, audio and video from the internal computer to a connected laptop.

Laptop/Videoconferencing Shelf (Optional)

Easily connects to support your peripherals.

SMART Board Software

Control any computer application, write and edit notes, and save everything in a single file. Features include capturing your notes with Notebook™ software, recording audio and data as a synchronized file with SMART Recorder, handwriting recognition, and writing over top of moving or still video. Free upgrades are available. SMART Board software is available for various operating systems and in multiple languages (Windows® operating systems only). Visit www.smarttech.com/sbssoftware.

SMART Ideas® Software

A free copy of SMART Ideas software comes with all SMART Board interactive whiteboards. Find out at www.smarttech.com/smartideas.

System Requirements

Windows Operating Systems
