

In-Wall *Rear Projection* **SMART Board™**

Interactive Whiteboard

Touch the screen to control your computer

Write in electronic ink

Save, print or e-mail notes

Display a clear, sharp image

Create a polished, professional work space

Make a big impression

The In-Wall series of SMART Board interactive whiteboards transforms your space into a professional, productive work environment. Combining the power of a computer and a projector, the interactive whiteboard is the ideal tool for presenting, collaborating and teaching.

Simply touch the screen to control computer applications, give presentations and navigate Web sites. Just pick up a pen to highlight material. You can write over any application or Web site, and capture, edit and save all your work.

Built right into the wall of your room, the interactive whiteboard creates an open and impressive work area that lets you maximize floor space. You can work naturally without any shadows or equipment in the way.

Features

Touch System

DViT™ (Digital Vision Touch) technology, developed by SMART (patents pending), lets you use your finger as a mouse and write on the screen – without any special tools. DViT technology uses cameras in the corners to track contact on the screen.

SMART Pen Tray

Optical sensors automatically detect when a stylus or the eraser is selected, while buttons activate the on-screen keyboard and right mouse click. Whisper-tip™ styluses and eraser included.

SMART Board Software

Control any computer application, write and edit notes, and save everything in a single file. Features include capturing your notes with Notebook™ software, recording audio and data as a synchronized file with SMART Recorder, handwriting recognition and writing over top of moving or still video. Free upgrades are available. SMART Board software is available for various operating systems and in multiple languages (Windows® operating systems only). Visit www.smarttech.com/sbssoftware.

SMART Super Screen

Diffusion screen significantly reduces ambient light reflection and glare, and delivers a high-contrast, uniform image with a wide viewing angle.

Wireless Keyboard and Holder

Standard keyboard with a built-in trackball works with any Windows operating system.

Wall-Mounting Kit

Includes brackets, screws, pen tray template and installation guide.

Integrated Projector*

True-XGA (1024 x 768) projector has a short-throw lens and 2,500 lumens of brightness.

SMART Mirror Stand*

Fully assembled with two mirrors, the space-saving mirror stand is less than 30" deep. It is also height-adjustable, and comes with casters and storage space.

* Applies to the 2960 and 2860 models only

In-Wall Series

Model	Active Screen Area (diagonal)
2960 *	84" (213.4 cm)
2860 *	71" (180.3 cm)
1910	84" (213.4 cm)
1810	71" (180.3 cm)
1710	66" (167.6 cm)

* SMART Mirror Stand and projector included

System Requirements
